"CANVAS STORE" TO OFFER 3 DAY SHIPPING!

We at James Thompson feel we produce the best-quality Duck/Canvas Cloth in the world! We dye and finish this in our Delaware plant, not in China or India-this gives us more flexibility and control that benefits your customer.

We have a lot of great Manufacturing accounts that use this product on 50 yd. rolls, in addition to our Retail customers who like D/R.

So, for 2008, our "Canvas Store" is going to offer all of you 3-day shipping on all colors in both rolls and bolts! Faster turn-over in your store or fast production times in your plant.

Our Duck color range includes the most popular athletic and home décor shades.

So, whether you are using Duck for tote bags, bean-bag games, futons, furniture, crafts, kitchen/tabletop products, apparel, pillows, or wall covering, come to the "Canvas Store" at James Thompson!
